1. Business Results

(1) Analysis of Business Results

(Million yen)

	Net sales	Operating income	Recurring income	Net income
FY ended March 31, 2015	483,188	14,763	13,424	14,507
FY ended March 31, 2014	471,089	13,673	11,574	15,229
change	12,099	1,090	1,849	(721)

During the fiscal year under review, although weakness can be seen in individual consumption due to the increase in consumption tax, a continuing recovery in the Japanese economy was evidenced primarily by the improvement in corporate earnings, employment, and income.

In the rental housing industry, new housing starts of leased units declined for the first time in three years (3.1% down year-on-year), due to negative effects of the rush demand from consumption tax increase. To achieve stable occupancy rates against the increasing number of vacant houses in the market, housing supply in limited areas and high-quality housing and services are required.

Under these conditions, the Leopalace21 Group aims to build solid management strength focusing on the core businesses, made up of leasing and construction, based on the Medium-term Management Plan "EXPANDING VALUE" announced in May 2014. In addition, the Group aims to establish new businesses that will contribute to future growth.

As a result, consolidated net sales for the fiscal year under review came to ¥483,188 million (up 2.6% year-on-year). Consolidated operating income was ¥14,763 million (up 8.0%), consolidated recurring income was ¥13,424 million (up 16.0%) and consolidated net income was ¥14,507 million (down 4.7%).

On a non-consolidated basis, net sales were ¥484,360 million (up 3.1% year-on-year), operating income was ¥15,595 million (up 17.07%), recurring income was ¥14,546 million (up 28.1%), and net income was ¥15,327 million (up 4.5%).

(Actual figures by segment)

(Million yen)

	Net sales			Operating income (loss)		
	FY ended March 31, 2014	FY ended March 31, 2015	change	FY ended March 31, 2014	FY ended March 31, 2015	change

Adjustments	—	—	—	(3,256)	(4,116)	(859)
Total	471,089	483,188	12,099	13,673	14,763	1,090

(i) Leasing Business

The occupancy rate at the end of the consolidated fiscal year under review was 89.29% (up 1.82 points from the end of last fiscal year) and the average occupancy rate for the fiscal year was 86.57% (up 1.99 points from the last fiscal year).

In the leasing business, to establish stable profits led by occupancy improvement, the Group implemented measures such as tenant recruitment utilizing direct leasing offices, franchises, and local real estate brokers, as well as expanding tenant services including "Room Customize" and security system installations. In addition, the Group further strengthened sales against corporate and foreign clients as well as reduced costs by reviewing routine property management tasks.

The number of units under management at the end of the consolidated fiscal year under review was 554,000 (increasing 6,000 from the end of last fiscal year), and the number of direct offices was 188 (increasing 4). The number of franchise offices was 141 (decreasing 23).

As a result of the above, net sales amounted to ¥399,316 million (up 2.7% year-on-year), and operating income was ¥20,532 million (up 31.9% year-on-year).

(ii) Construction Business

Orders received during the consolidated fiscal year under review were ¥87,395 million (up 7.7% from last fiscal year) and the orders received outstanding at the end of the consolidated fiscal year under review stood at ¥58,136 million (up 30.7% from last fiscal year).

In the Construction business, the Group aimed to improve profitability by focusing apartment supply in the three metropolitan areas where solid leasing demand is anticipated, as well as installing "non-sound floors" which improve sound insulation and developing products targeting females and young tenants. The Group also expanded construction variations to meet various land usage needs and has begun restructuring construction methods. However, the influence of worker shortage and cost increase in construction materials cannot be avoided.

As a result, net sales came to ¥61,312 million (down 2.9% year-on-year), and operating income was ¥210 million (down 92.9% year-on-year).

(iii) Elderly Care Business

Net sales were ¥10,608 million (up 4.3% year-on-year), and operating loss was ¥606 million (improving ¥4 million). In the elderly care business, which was positioned as growth strategy area in the Medium-term Management Plan, the Group will open new facilities in the collaboration with construction business.

(iv) Hotels & Resort t Business

Net sales in resort facilities in Guam and hotels in Japan were ¥8,951 million (up 18.2% year-on-year), and the operating loss was ¥1,289 million (increasing ¥70 million in loss).

(v) Other Businesses

In other businesses such as the small-claims and short-term insurance business, the solar power generation business, and the finance business, net sales were ¥2,999 million (up 108.0% year-on-year), and the operating income was ¥31 million (down 77.3% year-on-year).

(Outlook for the next fiscal year)

In the next fiscal year, the Company will strengthen our competitiveness by taking in our core business as the base, expanding elderly care business by cooperating with construction business and full-scale initiation of solar power generation business and overseas business.

As for the consolidated business results of the fiscal year ending March 2016, we expect sales of 525,000 million (up 8.7% year-on-year), operating income of 19,500 million (up 32.1%), recurring income of 18,000 million (up 34.1%), and net income of 16,000 million (down 10.3%).

(2) Analysis of Consolidated Financial Position

(i) Position of Assets, Liabilities, and Net assets

(Million yen)

	Total assets	Total liabilities	Net assets
As of March 31, 2015	308,274	181,801	126,473
As of March 31, 2014	287,459	182,598	104,860
change	20,815	(797)	21,612

Total assets at the end of the fiscal year under review increased ¥20,815 million from the end of the previous fiscal year, to ¥308,274 million. This was mainly attributable to an increase of ¥16,927 million in property, plant and equipment, such as machinery, equipment, and vehicles related to solar power generation business, ¥2,801 million in deferred tax assets, ¥1,684 million in goodwill, and ¥1,429 million in other accounts receivables, despite a decrease of ¥3,023 million in prepaid expenses.

Total liabilities decreased ¥797 million from the end of the previous fiscal year, to ¥181,801 million. This primarily reflected a decrease of ¥9,699 million in long and short term advances received and ¥4,072 million in reserve for apartment vacancy loss, despite an increase of ¥1,920 million in accounts payable for completed projects, ¥2,465 million in unpaid expenses and ¥7,260 million in interest-bearing debt.

Net assets were up ¥21,612 million from the end of the previous fiscal year, to ¥126,473 million, chiefly due to an increase of ¥16,216 million in retained earnings from net income and application of accounting policies related to retirement benefits, as well as an increase of ¥5,662 million in foreign currency translation adjustments. The ratio of shareholders' equity to assets rose 4.5 points from the end of the previous fiscal year, to 41.0%.

(ii) Cash flow position

Cash flow from operating activities was a net inflow of ¥15,715 million (an increase of ¥131 million in net inflow from the previous fiscal year). This was mainly due to ¥12,896 million of income before taxes and minority interests, ¥7,736 million of depreciation, an increase of ¥4,924 million in accounts payable and a decrease of ¥3,734 million in long-term prepaid expenses, despite a decrease of ¥9,572 million in advances received and ¥4,072 million in reserve for apartment vacancy loss.

Cash flow from investing activities was a net outflow of ¥17,550 million (an increase of ¥10,620 million in net outflow from the previous fiscal year). This was primarily due to payments for the purchase of property, plant and equipment of ¥16,531 million, as well as payments for the purchase of shares in subsidiaries of ¥812 million.

Cash flow from financing activities was a net inflow of ¥1,747 million (a decline of ¥71 million in net inflow from the previous fiscal year). This was chiefly due to proceeds from the loans and bond of ¥3,354 million (after deduction of repayment of borrowings and bonds redemption), despite a repayment of finance lease obligations of ¥166 million.

As a result, cash and cash equivalents at the end of the consolidated fiscal year under review stood at ¥74,504 million, an increase of ¥354 million from the end of the previous fiscal year

(Reference) Trends in cash flow indicators

	FY ended March 31, 2011	FY ended March 31, 2012	FY ended March 31, 2013	FY ended March 31, 2014	FY ended March 31, 2015
Equity ratio (%)	11.1	12.8	22.2	36.5	41.0
Market price based equity ratio (%)	6.2	18.0	32.2	45.3	53.6
Ratio of cash flow to interest-bearing debt (year)	—	—	8.1	2.4	2.8
Interest coverage ratio (ratio)	—	—	4.7	9.8	13.8

Equity ratio: Shareholders equity/assets

Market price based equity ratio: Market capitalization/assets

Ratio of cash flow to interest-bearing debt: Interest-bearing debt/cash flow

Interest coverage ratio: Cash flow/interest paid

(Note 1) Ratios are calculated on the basis of consolidated financial data.

(Note 2) Market capitalization is calculated as closing price at the end of the fiscal year x shares outstanding at the end of the fiscal year (excluding treasury stock).

(Note 3) Cash flow is cash flow from operations from the Consolidated Statements of Cash Flow. Interest-bearing debt is all of the debt noted on the Consolidated Balance Sheets on which interest is being paid.

(Note 4) The ratio of cash flow to interest-bearing debt and the interest coverage ratio for the fiscal years ended March 2011 and March 2012 are not shown because cash flow from operating activities was negative in those years.

(3) Fundamental Policy on the Distribution of Earnings and Dividends for the Fiscal Year under Review and Next Fiscal Year

The Leoplace Group acknowledges that the distribution of profit to shareholders is an important management issue. However, retained earnings are negative on non-consolidated basis, so it is with deep regret that the Group will pass on the term-end dividend. The Group also plans to pass on its dividends for the next fiscal year but will endeavor to recover retained earnings through a stable profit structure with the aim of restoring the dividend.

(4) Business and Other Risks

Listed below are the principal risks that we believe could affect the Leopalace21 Group's business performance and financial position. However, this list is not all-inclusive and does not cover all the risks that could affect Group businesses. All forward-looking statements included herein reflect the judgment of the Leopalace21 Group management as of the end of the consolidated fiscal term under review.

1. Revenue-related Risk

Leopalace21 apartments are primarily utilized by single persons, and corporate contracts typically involve short-term leases of apartments for use as company dormitories by workers travelling on company business. As a result, changes in the performance of the overall economy and corporate business results could affect employment rates or the demand for business trips, and this could negatively impact occupancy rates at the Company's apartments.

In addition, we have included in our forecasts all contracted orders for apartment construction, however the possibility that the client may not be able to obtain the necessary financing or loans from a financial institution is an important risk factor. Changes in the willingness of financial institutions to provide credit, changes in the assessed value of real estate to be used as collateral, and fluctuations in interest rates could affect Company revenues and adversely affect the Company's business results.

2. Cost of Sales

Based on the Company's apartment construction contract, the Company concludes a master lease agreement with apartment owners to lease back the constructed apartment for a period of time and at a rent level that are both fixed at the time the contract is concluded. Therefore, fluctuations in the amount of rental income received from tenants during the contract period could adversely affect the Company's profitability.

3. Risks Associated with Tangible Fixed Assets and Real Estate Held for Resale

Impairment losses or appraisal losses due to declines in the current market value of marketable securities, property for sale, fixed assets, or other assets could adversely affect the Company's business performance as well as its financial position. Moreover, with regard to the Company's hotel and resort related businesses, there will be a continuing need for regular investments in facility replacement and renewal. As a result, changes in depreciation expenses could have an effect on the Company's business performance.

4. Loan Losses, and Reserve for Bad Debt

The Company conducts financing activities, and carries on its books a balance for operating loans receivable comprising apartment construction loans and real estate equity loans. The Company also may guarantee the housing loans and membership fee loans offered to its customers by financial institutions. Apartment and other loans where repayment has become doubtful are accounted for separately as doubtful receivables (tangible), and a reserve is made for bad debt in each such case; however, our business results could be affected if amounts of uncollectible debt should increase, or if we should be obliged to honor claims pertaining to these loan guarantees.

5. Reserve for Apartment Vacancy Loss

In order to prepare for a risk of losses due to an increase in apartment vacancies, Leopalace21 has established a "Reserve for apartment vacancy loss" reserve fund equal to the amount of loss that may be expected to be incurred during a reasonably estimable period. The amount of this reserve is based on the rent levels set for individual leased units, the number of households, and occupancy rate forecasts calculated for each apartment building. Should any of these figures fall below the estimated values it could become necessary to increase the amount of the reserve, and this could adversely affect the results of the Company's leasing business.

6. Leasehold Deposits and Guarantee Deposits

Leopalace21 has long-term deposits from property owners held as an advance for apartment repair and renovation. These consist mainly of deposits received from property owners as a portion of future repair and renovation expenses, following the dissolution of Leopalace21 Owners Mutual Insurance Association. Leopalace21 makes a concerted effort as a leasing business operator to ensure the soundness of the apartment maintenance structure, through which properties fully leased from the owner are operated and maintained. However, an unexpected, large-scale repair or renovation could have an impact on Leopalace21's financial position.

Leopalace21 also has deposits for Leopalace Resort memberships related to the Guam resort business, most of which date to the opening of the resort complex in July 1993. The Leopalace21 Group works to increase member usage by improving facilities and

member services, but should there be an unexpected number of requests for reimbursement of these deposits, this could have an impact on Leopalace21's financial position.

7. Financial Covenants

Financial covenants have been set on the numerous loan agreements that Leopalace21 has concluded with financial institutions. Accordingly, should consolidated or non-consolidated net assets, consolidated or non-consolidated interest-bearing debt, non-consolidated operating income violate the conditions of a financial covenant, there is a possibility that the Company, at the behest of the financial institution, could forfeit the benefit of the term for corporate bonds or other borrowings, which could have an impact on the Company's operating performance.

8. Information Leaks

The Leopalace21 Group holds a great deal of information, including personal information obtained through the consent of, or as a result of non-disclosure agreements with client companies. To control information security, the Company has drawn up the required information security guidelines, and set up a Compliance Committee to thoroughly educate our executive officers and employees about information security issues. Nevertheless, in the unlikely event that a leak of information of some type should occur, there is a possibility that the Group's reputation could be damaged, and that business performance might be affected.

9. Other Risks

The Group is aware that it incurs a variety of risks in the course of promoting its businesses, and it attempts to prevent, distribute or avoid risk whenever possible. Nevertheless, the Group's business performance and financial position may be affected by changes in economic conditions, the real estate market, the financial and stock markets, legal regulations, natural disasters, and a variety of other factors.

2. Management Policy

(1) Fundamental Policy of Company Management

Following the corporate mission of "Creating New Value," the Company aims to i. Create new value that is unique to the Company through the teamwork of all employees taking part in planning with flexible ideas and drive while steadily focusing on the needs of the present day. ii. By making our clients' happiness our happiness, to continue growth as a company that is always evolving its products, service and technology. iii.

As a leading company in the industry, to create new value for all of society by contributing to the creation of an affluent society with a pleasant lifestyle.

(2) Management Indicator Goals

The Company has set its financial targets for the final year of its Medium-Term Management Plan "Expanding Value" (fiscal year ended March 31, 2015 - fiscal year ending March 31, 2017), which we announced on May 9, 2014, at ¥540 billion for net sales, ¥22.0 billion for operating income, ¥19.0 billion for net income, 12.3% for ROE, and 6.0% for ROA.

(3) Company Management Strategy for the Medium- Long-Term

The Company aims to build solid management strength based on its fundamental policy of "focusing on core businesses and challenging itself with new business fields" as established in its New Medium-Term Management Plan.

The Company aims to develop the leasing business further as a highly profitable business by taking various steps such as improving strong corporate sales, addressing tenant needs through "Room Customize" and the installation of security systems, strengthening efforts for foreign students who demonstrate solid demand, expanding its sales network through new store openings, and reducing costs by reviewing routine property management tasks.

In the construction business, the Company will seek a new profit foundation through measures such as supplying apartments in urban areas where a high occupancy rate is expected, offering advanced new products, building high-quality apartments by paying attention to earthquake protection and sound insulation, etc., and expanding the number of orders received for business buildings such as elderly care and commercial facilities and built-to-order houses. In the new Medium-Term Management Plan, the Company positions the elderly care business as a growth strategy area and will endeavor to promote the opening of care facilities through collaboration with the construction business. As a company-wide measure, the Company will also maintain a low cost structure while strategically investing in the costs (personnel, advertising, and sales promotion expenses) necessary to expand future sales and earnings.

(4) Issues to be Addressed by the Company

- Acquisition of individual clients and the promotion of long-term occupancy

With respect to the tenants in the Company's properties under management, corporate clients constitute a rising trend while individual clients constitute a declining trend. The Company's policy is to continue to enhance strong corporate sales; however, taking into consideration the fact that corporate clients are easily impacted by economic cycles, from the perspective of assuring stable sales and earnings, the Company will also strengthen its efforts to take in individual clients and promote long-term occupancy through measures such as implementing advertising and sales campaigns for individual clients, expanding its sales network through new store openings, and providing a variety of services for tenants.

- Improving earnings power and developing new businesses

For the Group to grow sustainably, improving its earnings power in the leasing business and developing new business domains will be necessary. Although the Group has already made efforts to increase its earnings power by enhancing tenant services and implementing measures to increase the value of properties, in addition to implementing a "leased roof solar power generation business" through a solar power generation company, operating the rental housing management business through a joint venture in South Korea and the local real estate agency business and development of service apartments in countries of ASEAN, the Company will continue to work on developing new business fields, products and services, as well as its revenue base.

3. Basic approach to selection of accounting standards

The Leopalace Group has been preparing its consolidated financial statements based on the Japanese Accounting Standard by taking into account the comparability of the consolidated financial statements between terms and between companies.

Moreover, the Group has adopted a policy of giving appropriate consideration to the application of the International Financial Reporting Standards (IFRS) by primarily taking into account the progress of the ratio of foreign shareholders and the trends of domestic companies in the same industry.

(5) Notes Regarding Consolidated Financial Statements (Notes Regarding the Premise of the Company as a Going Concern)

There are no relevant items.

(Significant Items Fundamental to the Preparation of Consolidated Financial Statements)

- Matters relating to the scope of consolidation

Leopalace21 (Shanghai) Property Management Co., Ltd., Leopalace21(Cambodia) Co.,Ltd., Leopalace21 Real Estate (Cambodia) Co., Ltd. and Leopalace Energy Corporation were established in the consolidated fiscal year under review, and have been included in the scope of consolidation.

Morizou Co., Ltd. and WING MATE CO., LTD., whose shares were acquired in the consolidated fiscal year under review, have also been included in the scope of consolidation.

Moreover, as a result of the absorption-type merger that took place in the consolidated fiscal year under review, in which WING MATE CO., LTD. became a surviving company and Leopalace Travel Co., Ltd. became an extinct company, Leopalace Travel Co., Ltd. has been excluded from the scope of consolidation.

- Matters relating to the application of the equity method

LIXIL Renewal Corporation has been excluded from the scope of the application of the equity method because its shares were sold in the consolidated fiscal year under review.

- Matters relating to business year of consolidated subsidiary

The settlement date of Leopalace21 (Shanghai) Property Management Co., Ltd., Leopalace21 (Cambodia) Co., Ltd., Leopalace21 Real Estate (Cambodia) Co., Ltd. and WING MATE CO., LTD. is December 31. In preparing the consolidated financial statements, the financial statements as of December 31 have been used. However, adjustments necessary for preparing the consolidated financial statements have been made to the important transactions that took place between December 31 and the consolidated settlement date.

The settlement date of Morizou Co., Ltd. is September 30. In preparing the consolidated financial statements, its financial statements based on a provisional settlement as of the consolidated settlement date in accordance with the actual settlement have been used.

- Matters relating to accounting standards

Amortization method and period of goodwill

The Company has adopted a policy whereby goodwill is amortized on a straight-line basis over the period in which the economic benefits are expected to be realized. However, if the amount is negligible, it is amortized at once when it takes place.

The disclosure of matters other than the above is omitted, as there are no significant changes from the statement in the most recent annual securities report (submitted on June 27, 2014).

(Changes in Accounting Policies)

(Application of accounting policies related to retirement benefits)

The Company has applied section 35 of the Accounting Standard for Retirement Benefits (ASBJ Statement No. 26, May 17, 2012) and section 67 of the Guidance on Accounting Standard for Retirement Benefits (ASBJ Guidance No. 25, March 26, 2015) since the consolidated first quarter accounting period. The calculation methods of the retirement benefit obligations and service costs have been revised, and the attribution method for the projected retirement benefits has been changed from the service period basis to the projected benefit method. In addition, the method of determining the discount rates has been changed from a method utilizing the discount rate based on an approximation of the average remaining years of service of employees to a method utilizing multiple discount rates corresponding to each payment possibility period of retirement benefits.

In accordance with the transitional measures stated in section 37 of the Accounting Standard for Retirement Benefits, the affected amounts due to changes in the calculation method of retirement benefit obligations and service costs are included in retained earnings as of the beginning of the consolidated accounting period under review.

As a result, retirement benefit liability has decreased by ¥1,708 million and retained earnings have increased by the same amount as of the beginning of the accounting period under review. The effect on operating income, recurring income and income before taxes and minority interests is insignificant.

(Business Combination, etc.)

i Business Combination through Acquisitions

(Stock Acquisition of WING MATE CO., LTD.)

1. Outline of the business combination

(1) Name of the acquired company and its business activities

Name of the acquired company: WING MATE CO., LTD.

Business activities: Travel business

In addition, Leopalace21 aims to obtain the opportunity of providing rental houses to the corporate customers of WING MATE CO., LTD.

(3) Effective date of the business combination

October 31, 2014

(4) Legal structure of the business combination

Stock acquisition

(5) Name of the company subsequent to the business combination

No change

(6) Percentage of voting rights acquired by Leopalace21

100%

(7) Primary basis for determining the acquirer

Due to the fact that Leopalace21 has acquired WING MATE CO., LTD. through stock acquisition with cash considerations.

2. Period of business performances of the acquired company to be included in the Consolidated Statements of Operations in the subject cumulative quarter

Since the deemed acquisition date is set as December 31, 2014, the business performances of the acquired company is not included in the Consolidated Statement of Operation of the subject cumulative third quarter period.

3. Acquisition cost of the acquired company and its details

Consideration for the acquisition	The market value of the common stock of WING MATE CO., LTD. on the business combination date	¥65 million
-----------------------------------	--	-------------

Direct costs required for acquisition	Advisory costs, etc.	16
---------------------------------------	----------------------	----

Acquisition cost		81
------------------	--	----

4. Amount, source, method and period of goodwill amortization

(1) Amount of goodwill

¥3 million

Since the allotment of the acquisition cost is not complete, a provisional accounting process has been conducted based on available and rational information.

(2) Source of goodwill

Due to the acquisition cost exceeding the market value of net assets on acquisition date.

(3) Method and period of goodwill amortization

One-time amortization

(Stock Acquisition of Morizou Co., Ltd.)

1. Outline of the business combination

(1) Name of acquired company and its business activities

Name of acquired company: Morizou Co., Ltd.

Business activities: Design, construction and management of custom-built homes

(2) Major reasons for the business combination

Morizou Co., Ltd. is engaged in the design, construction and management of custom-built detached houses in the Kanto and Chubu regions. On the other hand, in its construction business, the Company subcontracts the construction of custom-built detached houses, including the homes of approximately 26,000 landowners nationwide.

The Company established a business alliance with Morizou Co., Ltd. in April 2014, and has been providing jointly developed products since then. The business combination is designed to aim to achieve the further advancement of the two companies by further strengthening the collaboration with the Leopalace Group.

(3) Effective date of the business combination

March 30, 2015

(4) Legal structure of the business combination

Stock acquisition

(5) Name of the company subsequent to the business combination

No change

(6) Percentage of voting rights acquired by Leopalace21

88.2%

(7) Primary basis for determining the acquirer

Due to the fact that Leopalace21 has acquired Morizou Co., Ltd. through stock acquisition with cash considerations.

2. Period of business performances of the acquired company to be included in the Consolidated Statements of Operations in the consolidated accounting period under review.

Since the deemed acquisition date is set as March 31, 2015, the business performance of the acquired company is not included in the Consolidated Statement of Operation for the consolidated accounting period under review.

3. Acquisition cost of the acquired company and its details

Consideration for the acquisition	The market value of the common stock of Morizou Co., Ltd.	¥1,676 million
Direct costs required for acquisition	Advisory costs, etc.	8
Acquisition cost		1,685

4. Amount, source, method and period of goodwill amortization

(1) Amount of goodwill

¥1,684 million

Since the allotment of the acquisition cost is not complete, a provisional accounting process has been conducted based on available and rational information.

(2) Source of goodwill

Due to a reasonable estimation of future excess earning power, which is expected by the future business development.

(3) Method and period of goodwill amortization

Amortization on a straight-line basis over ten years
